INCIDENT MANAGEMENT SITUATION REPORT TUESDAY, AUGUST 4, 1998 - 0530 MDT NATIONAL PREPAREDNESS LEVEL II

CURRENT SITUATION:

Extreme weather conditions persisting in Texas continues to produce a high level of fire activity. Increased fire activity was reported in the Southwest and Southern California Areas. Minimal activity was reported elsewhere. The National Interagency Coordination Center processed orders for engines, aircraft and miscellaneous overhead. Very high and extreme fire indices were reported in Michigan, Oklahoma, Arkansas, Texas, New Mexico, Arizona, Nevada, Utah, Idaho, Montana, South Dakota, Oregon, Washington and California.

SOUTHERN AREA LARGE FIRES:

MUD FIRE, Big Thicket National Preserve. This fire is burning in a remote area of hardwoods, leaf litter and pockets of very thick brush and downfall created by the infestation of the Southern Pine Beetle. Natural barriers have been ineffective due to weather conditions. Crews will be building line on the east side of the fire.

LYE CREEK, Texas State - Shelby County. The fire is burning in timber plantations and resident timber stands. Three barns have been destroyed by the fire. Containment efforts are going well and full containment was expected last night.

CASH COMPLEX, Texas State - Hunt County. No new information was received.

BEAR MOUNTAIN COMPLEX, Oklahoma State. A Unified Command structure is in place and a Type II Incident Management Team (Bollman) is assigned. Forces continue to mop-up, patrol and assist initial attack as requested. All of the fires in the complex are lined. However, windy conditions and low relative humidity are threatening containment.

SOUTH LINE, Texas State. Four engines stopped this lightning fire on private land at the boundary of the Sabine Wildlife Refuge. No further information was reported.

RICHLAND CREEK, Texas State - Navaro County. No new information was reported.

WEATHERFORD, Texas State - Parker County. Two homes were destroyed by the fire and three more are threatened. No other information was reported.

NORTHWEST LARGE FIRES:

BELMONT RD., Oregon State - Jefferson County. This fire is located ten miles west of Madras. High temperatures, low relative humidity and access are hindering containment efforts. There are one hundred eighty homes near the perimeter of the fire. Full containment was expected last night.

INCIDENT NAME	 ST U 	 JNIT 	SIZE	 % CTN		 TOTAL PERS	:	 ENG 				\$\$\$ C-T-D

SOUTHWEST LARGE FIRES:

RYE, Tonto NF. Windy conditions pushed this fire through flashy grass and brush fuels. Protection priorities include a subdivision and power transmission line.

TRANCEPT COMPLEX, Grand Canyon NP. This fire is located eighty miles northwest of Flagstaff. All fires in the complex are steadily growing in Ponderosa Pine. Management strategies include burnout of large areas to minimize long term smoke emission. Resource management objectives are being met.

SOUTHERN CALIFORNIA LARGE FIRES:

PINE, California State Division of Forestry - Fresno-Kings Ranger Unit. This fire is burning in grass and heavy brush two miles southeast of Pine Flat Lake.

STONEWALL, California State Division of Forestry - San Benito-Monterey

Ranger Unit. This fire is located on the south side of Pinnacles National Monument. The fire is burning toward an area that is scheduled for prescribed burning and the decision is to let it burn in that area. Crews are building line on the boundary which is currently not near the fire perimeter.

OUTLOOK:

It will be hotter and drier in the western U.S. today. There will be scattered mostly wet thunderstorms in Colorado, eastern Wyoming and New Mexico. High temperatures will be in the 70's and mid 90's in the mountains and 90's to 118 elsewhere. The Northern Rockies will be 5-10 degrees cooler.

There is a heat advisory for northeast Texas and southeast Oklahoma. Texas will be partly cloudy with scattered thunderstorms in the east and north. Oklahoma and Arkansas will be mostly cloudy, hot and humid with scattered showers and thunderstorms. High temperatures will be in the upper 80's to 105.

Michigan will be mostly cloudy with a chance of showers. High temperatures will be in the mid 70's and 80's.
